

## **GT-1 Natural Stone & All Surfaces Daily Cleaner Instructions**

GT-1 is a neutral pH, ready-to-use, EPA Certified "Green" cleaner, formulated to safely and easily clean honed or polished marble, granite, limestone, slate, travertine, Corian, ceramic, porcelain, laminate and also painted wall surfaces. Works great on windows, mirrors, and shiny metal fixtures.

GT-1 is streak free and dries quickly. GT-1 is formulated to be environmentally compatible and sustainable. This fast evaporating, powerful, daily cleaner works quickly and cuts through soils on all hard surfaces.

See [www.mbstone.com](http://www.mbstone.com) for technical assistance.

### **Directions:**

**Stone & Corian surfaces** – Hold sprayer about 6-8 inches from surface and spray a light mist over area to be cleaned. Let GT-1 sit for approximately 30 seconds. Scrub with sponge or light duty pad. Buff the surface dry with a paper towel or a clean lint-free white cloth. When towel becomes wet, discard and start with a fresh one.

**Glass, laminated, metal, and painted surfaces** – spray light mist over area to be cleaned. Wipe immediately with a paper towel until dry.

**Daily cleaning of floors** – Spray GT-1 directly on to floor. Use a microfiber mop to clean surface. Rinse out microfiber pad every 50 to 100 square feet.
